STARTAS ESPADRILLES

Startas, as the most recognizable *Borovo* brand, has received its version of espadrille as one of the most desirable footwear models in the last couple of years. Espadrilles in many different forms have become a part of the fashion scene all the way to high fashion.

Startas espadrilles perfectly fit the *Startas* brand as ideal footwear for spring and summer days. Soft, light and comfortable, easy to put on, in a variety of designs, perfectly complement all summer combinations.

Made the same way *Startas* sneakers are made, of canvas and rubber made from caoutchouk, carefully handled by over 20 pairs hands in production.
